

ASBESTOS NOTIFICATION STATEMENT

Each building permit for the demolition or renovation of an existing structure must comply with all Florida Building Code and federal and state regulations regarding asbestos, including but not limited to the regulations set forth in **Florida Building Code 105.9** and **Florida Statutes Section 469.003**.

Per **Florida Statutes Section 469.003**, the owner or operator is responsible for notifying the Department of Environmental Protection in advance of any intentions to remove asbestos, when applicable, in accordance with state and federal law.

Address of Demolition/Renovation: _____

Description of Work: _____

Applicant Name: _____ Owner Owner's Agent

Phone: _____ Email: _____

Owner/Contractor's Acknowledgement: I have read and received the asbestos notification statement for the Town of Lantana. I acknowledge that any demolition or renovation of an existing structure must comply with FS 469.003, FBC 105.9, and any other relevant regulations, including state and federal law. I understand that I am required to contact the Department of Environmental Protection for notification of any intent to remove asbestos.

Signature of Owner/Contractor
