FY \_\_\_\_\_ Permit # \_\_\_\_\_

The parking permit shall be permanently affixed by the resident to the vehicle assigned to the above registration and may be used to park at the beach, downtown, and other areas in Town with parking meters.

**To prevent possible loss or theft, affix the parking permit to the lower left corner of vehicle rear window, then "score" the permit.**

If you should trade or sell your vehicle, or have your rear window replaced, you **MUST** remove the permit from the rear window and return it with your new car registration in order for it to be re-placed at no charge. Permits are made to break apart upon removal, you do not have to return the permit intact; pieces of the permit will be accepted. **If you cannot produce a current year permit, you are required to purchase a new one at full cost.** Lost permits will also require the purchase of a new permit.
